THE BATTLE FOR PUBLIC HEALTH.

The Next Market Raids-What the Bo of Health Intend To Do-The New Ren-dering Process-Wholesale Seizure of Unripe and Decayed Fruit.

The Board of Health is still busy removing some of the greatest nuisances which disgrace our city. On Saturday last the booths and stands in South atreet, between Peck slip and Beekman street, were removed, and the booths at Catharine Market will probably have "to go" next. There is one very large booth—Haggerty's—at Catharine Market which will probably be removed first. One of the inspectors, speaking of this booth to the Herald reporter, said:-"It is kept pretty clean and in tolerably good condition, except that it covers the Board of Health have nothing to do with a street obstruction, and they will merely destroy it upon the street gutters and the entrance of sufficient air and light into the main part of the market.

ports will be submitted in relation to the condition of the various

PUBLIC MARKETS IN THE CITY, Clinton, Catharine, Centre, Essex, Tompkins and Jefferson markets.

"The private markets," said Dr. Chandler, the President of the Board, "are all in good condition as far as we know, although we have not inspected to tell you what steps the Board will take in regard to these markets. If we find anything langerous to life or detrimental to health we are bound to remove it-that is all. None of these markets have, as yet, been before the Board. The only markets which we have had under consideration thus lar were Fulton and Washington Markets, and you know the work we have done there. You officers of the Board. They report to the Board and whatever they have found to be detrimental to health is declared a nuisance. Notices are then served upon the owners ordering them to

then served upon the owners ordering them to remove within a certain time—that's how we proceed in such matters. Now, in the case of the Washington Magket, the Board of Public Works was first instructed

TO REMOVE THE BOOTHS,
and did not do it. We then called upon the Board of Health to remove them, and they did not do it. The Board then bold Mr. Gridley to do it, and Mr. Gridley did do it."

Dr. Jayne, who wh, probably report to-day in regard to the condition of Centre and Catharine Markets, said Catharine Market, was in very good condition, although some of the outside sheds would have to be torn down. Centre hanket, he said, had been very much out of repair, bath, now in pretty good condition; it had, nevertheless, number of nuisances; but neither centre nor Catharne Market had been so bad as Washington and Phi'on Markets. Clinton Market was in very good condition, but some booths will have to be destroyed. Dr. Jayne is of the opinion that all the markets ought to be rebuilt.

The smell at the offal dock at the foot of West Fortieth street was not so bad yesterday as it was under the recume of the rendering company. Mr.

ought to be rebuilt.

The smell at the offal dock at the foot of West Fortieth street was not so bad yesterday as it was under the regime of the rendering company. Mr. Frank Swift, who has now the contract for removing the offal to Barren Island, is a weathy contractor, who has done similar work for the city for many years. He has the contract for removing the "night soil." The city will PAY HIM THE SAME PRICE they paid the rendering company—\$15,000 a year. Almost all the inspectors of the Board of Health are of the opinion that the rendering company made a great deal of money out of their contract. "The amount of the contract," one of them said, yesterday, "just about covered their expenses of removal, and the profit which they realized by the process of rendering the offal must have been something enormous."

Mr. Switt entered upon the execution of his contract on Saturday. He brought his own men for the work, and there was naturally a little delay at first owing to the inexperience of the new men. The work of handling the vast quantity of orfal deposited at the dock is very difficult and one that requires a certain experience not to be acquired in a day or two. Yesterday morning there was also a slight delay which caused considerable inconvenience. The smell, however, has greatly improved. Formerly the stench was quite terrine and now there is only a bad smell of fat, that is all. All the offal is now rendered at Barren Island, six or seven miles beyond Coney Island.

McNeil's tailow rendering establishment, which emitted the most fearful smell of any in the neighborhood,

borhood,

HAS AT LAST BEEN CLOSED.

The Board of Health placed yesterday an inspector and two policemen in the building, with orders to arrest McNeil if he again begins work. This guard will be relieved at night by another inspector with two policemen, so that it will be impossible for Mr. McNeil to poison the air in the future with the noxious gases proceeding from his factory. The Board of Health have asked him repeatedly either to stop work or perfect his machinery, so that his establishment shall not emit so vile a stench. "The smell from his works used to extend as far as avenue C," said Dr. Chandler yesterday. McNeil has been repeatedly refused a permit, but he had always such a number of watchfu spies that it was impossible for the Board of Health to "catch him in the act." But now he has been caught at last.

The subject of

ECAYED AND UNRIPE FRUIT

DECAYED AND UNRIPE FRUIT is a highly important one. A large number of children die every week from eating the green and de-cayed fruits which are to be found upon the stalls in the poorer portions of the city. Yesterday the Board of Health sent Inspector Whollahan, with a policeman and a cart, with orders to go through the lower wards and seize all the unripe and de-cayed fruit which he can find. This is as yet an experiment, but if the work is continued there is no doubt that many a life will be saved. Dr. Day intends to continue the experiment during the whole week.
